City of Bee Cave – Taxpayer Impact Statement

(Required under Texas Government Code §551 as amended by HB 1522, effective September 1, 2025)

The City Council will be considering approval of the proposed tax rate at its regularly scheduled meeting September 22, 2026, City Council meeting. This notice informs taxpayers of the potential impact of the FY27 budget and tax rate for Fiscal Year 2026–27, comparing what would be paid under the No-New-Revenue tax rate versus the Proposed Tax Rate. The City Manager included the Proposed Tax Rate in the proposed budget filed with the City Secretary on August 19, 2026.

1. Average Taxable Homestead Value

Prior Year (FY2025-26)	\$768,375
Current Year (FY2026-27)	\$768,061

2. Tax Rates

No-New-Revenue Tax Rate (FY2026–27)	0.020027 per \$100 valuation
Proposed Tax Rate (FY2026–27)	0.020000 per \$100 valuation

3. Estimated Annual Tax Bill Comparison

Scenario	Tax Rate	Estimated Tax Bill	Difference from No-New-Revenue
Prior Year (FY 2025-26)	0.020000	153.68	-0.14
No-New-Revenue (FY 2026-27)	0.020027	153.82	-0.00
Proposed Tax Rate (FY 2026-27)	0.020000	153.61	-0.21

Calculations:

- Prior Year Tax Bill = $(768,375 \div 100) \times 0.020000 \approx \153.68
- No-New-Revenue Tax Bill = $(768,061 \div 100) \times 0.020027 \approx \153.82
- Proposed Tax Bill = $(768,061 \div 100) \times 0.020000 \approx \153.61

Summary

If the City Council proposes and adopts the proposed tax rate of \$0.020000 per \$100 valuation, the average homestead owner would pay approximately \$0.21 less annually compared to the No-New-Revenue tax rate.

Statements required in notice if the proposed tax rate does not exceed the lower of the no-new-revenue tax rate or the voter-approval tax rate, as proscribed by Tax Code §26.061.

GENERAL INFORMATION: Tax Code Section 20.04(C) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. Those tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

The comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

Taxing units must include a hyperlink to a document that evidences the accuracy of each entry in the worksheet other than an entry making a mathematical calculation. Source materials must contain data for all worksheets used, including supplemental worksheets.

Section 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

Line	NO-NEW-REVENUE TAX RATE WORKSHEET	Amount/Rate
1.	2025 total taxable value. Enter the amount of 2025 taxable value on the 2025 tax roll today. Include any adjustments since last year's certification; exclude the Section 25.25 (d) one-fourth and one-third over-appraisal corrections from those adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (adjustment is made by deducting TIF taxes, as reflected in Line 17).	\$ 2,930,770,667

Section 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

1. **Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities, and day-to-day operations.
2. **Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases, the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally, decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

Section 3: NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

Section 4: Voter-Approval Tax Rate Adjustments for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

Section 5: Voter-Approval Tax Rate Adjustments for Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Forgone Revenue Amounts divided by the current taxable value. The Forgone Revenue Amount for each year is equal to that year's adopted tax rate subtracted from the year's voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year's current total value. In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the portion of the unused increment rate that was used must be backed out of the calculation for that year.

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042
- a tax year in which the municipality is a determining municipality, as defined by Tax Code Section 26.051(a); or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(n) without the required voter approval.

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.

Section 7: Voter-Approval Tax Rate Adjustments for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 20.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value properly taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 20.042(a) because it has not met the conditions in Tax Code Section 20.042(a)(1) or (2).
